# David Peter Benjamin Norta

## Education

- PhD candidate at the University of Luxembourg and the RWTH Aachen University

## Other activities

- Member of Ingenieure ohne Grenzen e.V. (EWB Germany) Kompetenzgruppe Erneuerbare Energien
- Member of Deutsche Physikalische Gesellschaft e.V.

David's presentation focusses on the founding of Engineers Without Borders Luxembourg. His motivation originates from his experience with Engineers Without Borders Germany in Aachen (e.g. the Indian Adoni project, helping 320 children to get energy efficient prepared food every day). David will present ideas, concepts and the long way to the solution for developing the backbone of an NGO of technical development cooperation in Luxembourg. He will also introduce the founding members of Engineers Without Borders Luxembourg.
